## How Do We Control The Quality:

- ◆ We have own testing department,we can do the following testing:  
**Hardness · Tensile / Proof Loading · Impact · Chemical Analysis · Optical Vision Measuring · Eddy Current Analyzer.**
- ◆ For the production Process,every process we have independent inspector for control quality,and from raw material coming to forging to heat treatment to finished products,we insert all datas to our ERP system to keep **good traceability**.
- ◆ After shipment,we provide Test Report and Mill Certificate.

## Our Commitment:
